March 1, 1878. Outstanding notes amount to \$25,840 73

GEO. SANBORN, Treasurer.

SCHOOL REPORT.

FELLOW CITIZENS OF MEREDITH:

There are a few general matters to which your committee wishes to call your attention, before taking up the schools separately. The statistics* show that there are 328 children in town who are legally scholars and that 16 of that number have not attended school anywhere during the past year.

The whole amount of money appropriated to the schools was \$2,014 80,* being an average of \$6 14 to each pupil.

The distribution of money to the several districts, is shown in the table. 321 scholars have studied reading, 317 spelling, 202 penmanship, 292 arithmetic, 173 geography, 114 grammar, 114 composition, 30 history, 14 book-keeping, 14 drawing, 84 vocal music, 23 algebra, 16 philosophy, 3 chemistry, 2 botany, 9 latin, 2 astronomy. I find that the scholars, are generally well supplied with text books; but, as Mr. Bard suggested last year, there is great need of new grammars.

Except in district No. 5, there is an entire lack of wall maps and charts; and also, with one exception, of books of reference; this is not as it should be; every school should have a dictionary; every district which is able to have two or three terms of school, of six to twelve weeks each, should raise a few dollars for the purchase of such articles.

*Not including unions with Centre Harbor and Sanbornton.

Our teachers are drifting more and more into oral teaching, which is the true method ; and consequently feeling more and more the need of them.

Uniformity and regularity are absolutely necessary to the success of our schools. Let parents see to it, then, that their children are not absent at the opening of the school in the morning ; that they are not allowed to be absent a day, or a half day ; nor to be dismissed for any petty reason !

DISTRICT NO. 2. Miss M. Ellie Bedee, Teacher. Miss B. has taught five terms in succession in this district, which fact in itself is a good recommendation.

The work done here was of a very excellent quality, thoroughness being a marked feature.

DISTRICT NO. 3. Both terms were taught by Miss Han-B. Smith ; making in all, six terms in sucession taught by her in this district. The record of attendance in this school was above the average, and the efforts of teacher and pupils must result in good ; yet the order and thorough thoroughness of instruction, especially during the last term, were not such as are desirable.

DISTRICT NO. 4. The school in this district was divided into three terms, and was under the charge of Miss Grace G. Robinson, of Plymouth ; a graduate of the Normal School.

This teacher having had normal training, and being naturally adapted to teaching, is eminently successful as a teacher.

DISTRICT NO. 6. First term, Miss J. Emma Stevens, of Centre Harbor ; second term, Miss Hattie J. Hoyt, of this town ; both experienced and energetic teachers, graduates of the normal school, and both well known as teachers, to this community ; hence remarks are unnecessary.

I wish to call attention to the fact that during the first term, there was not a single instance of tardiness, or dismissal.

Only two scholars were absent one half day each.

In its record of attendance therefore, this is the banner school of the town.

IN UNION DISTRICT NO. 7 in Meredith, and No. 5 in Laconia, the committee has been particularly fortunate in the selection of teachers for the past year. The first term was taught by Miss Annie E. Trafton, of York, Me.

Miss T. is a superior scholar, and only lacks experience to place her among our very best teachers. Her closing exercises were very interesting. The second term was under the care of Miss Julia L. Ellis, of Lancaster. Miss E. brings to bear upon her school the advantages of experience, a love of teaching, and devotion to her work. Her drill in reading was very successful, and worthy of mention. The higher class displayed remarkable force and skill in their reading and elocutionary exercises.

The record of attendance was far above the average. There were six scholars who were not absent one half day.

DISTRICT NO. 8. Miss Lavina S. Towle made her first attempt at teaching here. Miss Towle is a young lady of fine attainments, and, although wanting in experience, met with fair success in this school.

Mr. Eugene Drake, of New Hampton, taught the second term.

DISTRICT NO. 9 AND 10. Miss Ida M. Chase, of New Hampton, had charge of the summer term. Miss Chase is a young teacher of but little experience. On my first visit to the school, I found good order, and every thing apparently working well. At the time of the last visit, there were only five scholars present, some of whom had made fair progress.

The school did not give general satisfaction.

The second term was taught by Mr. Brad. R. Dearborn; a thorough and hard working teacher, who labored earnestly for the good of his pupils, and ought, certainly, to have received the support and cooperation of the parents. The record of attendance of both terms, was very bad; and the question naturally arises—did these teachers receive such support as was due them from the district?

DISTRICT NO. 11 had but one term of school, of twelve weeks. It was commenced by Miss Helen B. Wilson, who,

on account of matrimonial intentions, newly formed, left suddenly at the end of five weeks, and the term was completed by Miss Sarah M. Noyes, a thorough and accomplished teacher.

The school, from the beginning, showed marked improvement.

DISTRICT NO. 12, had two terms, both taught by Miss J. Annie Robinson. Miss R. is a young teacher, of but little experience; but she has had some normal training, and she has also, a good stock of energy, and a natural aptitude for teaching.

Her success compared favorably with that of some of our best teachers.

DISTRICTS NO. 13, 15, 16, AND 17, had but one term each; and were taught by the following teachers, respectively: Miss Ella M. Smith; Miss May M. Hunkins; Mrs. Flora A. Brown; and Miss Josephene A. Robinson; all young teachers, with little or no experience. The school in No. 16, was visited but once. The appearance of the school was, at that time, entirely satisfactory; and I hear that it gave general satisfaction.

Of the others, I can speak positively. The improvement was all that could be desired. They are all teachers of much promise, and as young teachers, receive my highest recommendations.

H'AVEN PALMER, School Committee.

DISTRICT NO. 5.

The board elected, as by law, in the spring of 1877, submit their report. This is their first year; a year of experiment; we relied, to some extent, on the experience of similar boards in other towns. We adopted with some modifications, the regulations of the Laconia Board. We have been met with some objections from some quarters. It is, as yet, too early altogether, to settle whether the rules are wise, or otherwise. We have had numerous general and personal questions to meet and difficul-

ties to arrange. We hope, in the main, we have met the reasonable demands of reasonable men. Our work has been greatly embarrassed by a great amount of absences, tardinesses and dismissals.

We urge upon parents greater diligence in sustaining us in this direction. The district voted that all scholars should share alike in the benefits of the school.

So far as the terms are concerned, which fall directly under our control, and are paid for at public expense, we have given twenty-seven weeks schooling to the two lower grades, to twenty to the upper grade. In the additional spring term, the advantages are shared alike by scholars of a higher and lower grade. So far as partiality or impartiality is concerned, a juster distribution could hardly be made.

Emma W. Cox has taught the primary department. She has always excelled, but this year she has excelled herself.

Annie R. Cox, a new teacher to us, has taught the Intermediate. The instruction has been normal, distinctively; eminently thorough, and sufficiently rapid. The discipline has been vigorous; a feature demanded decidedly for the best interests of the school. We have been fortunate in securing the services of one who must stand, certainly, in the front rank of teachers.

It is to be deeply regretted that no more of our citizens have made personal examination for themselves, by at least occasional visits to the school room.

Mr. D. M. McPherson, A. B., has had charge of the upper department. A quiet, but firm government has been maintained; a thorough, but not ostentatious instruction has been given; the whole influence of a thoroughly educated mind, and pure character has been silently at work.

The experiment of the year is before the people; on it we bespeak their candid judgment.

In behalf of the Board,

G. I. BARD, Sec'y.

STATISTICAL TABLE.

No. of District.	No. of Terms.	Names of Teachers.	Length of School in Weeks.	Wages per Month, In- cluding Board.	Whole No. Scholars.	Average Attendance.	No. Tardinesses.	No. Dismissals.	No. Not Attending School.	Money Appropriated to Each District.
